BIG POS Guide WOLF - DCIT

WOLF has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information. Please see the guide to read **WOLF's** style numbers.

The correct style number for **WOLF** is entered in the Model # field: **395011**

Examples of incorrectly entered style numbers include: **SO – 395011, LEOP395011, 395-011, 395011 SMITH, SAVANNA CASE**

WOLF does not utilize serial numbers.

DCIT will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

DCIT also gives you the ability to receive your inventory as a csv file, please contact them directly for more information.
