

ALOR Vendor Style Guide

for Edge Point of Sale

ALOR has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information. Please see the attached style reference key for help in reading ALOR's style numbers.

The correct style number for ALOR is entered in the Vendor Style # field: 04-52-1357-11

Examples of incorrectly entered style numbers include: 04-52-1357- 11-C, 04-52-1357-11 #43, 04-52-1357-11/06

Edge will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

ALOR does not use serial numbers.

In Edge, if you wish to account for an item that is custom made for a customer, you can use the “Style Note” field for this information, maintaining the integrity of the style number on your invoice. If the item is a special order, you will use the “Stock Type” field to record that and allocate the item to the customer.
