

# ALOR Vendor Style Guide

## for DCIT Point of Sale

ALOR has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information. Please see the attached style reference key for help in reading ALOR’s style numbers.

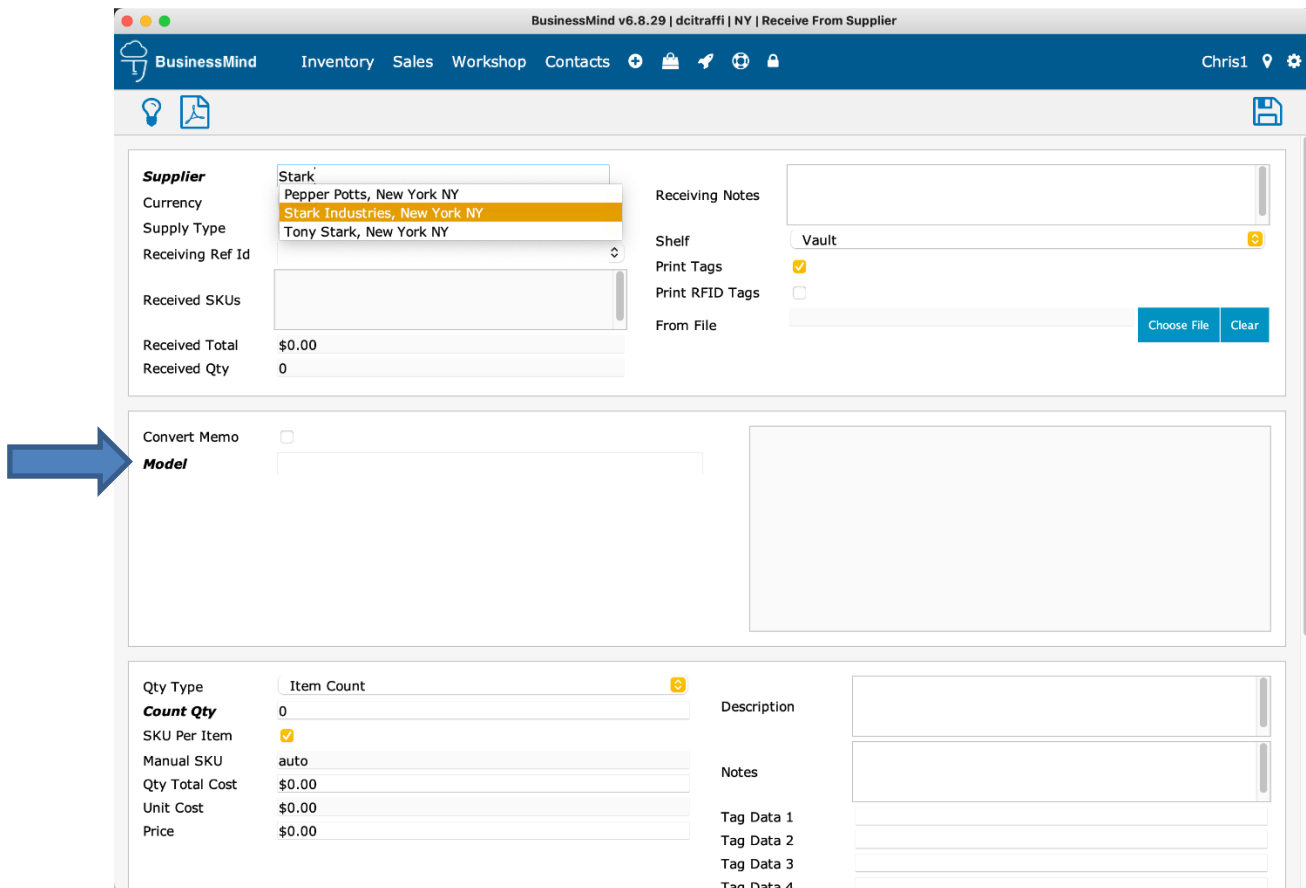

The correct style number for ALOR is entered in the Model field: 04-52-1357-11

Examples of incorrectly entered style numbers include: 04-52-1357- 11-C, 04-52-1357-11 #43, 04-52-1357-11/06

DCIT will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

ALOR does not use serial numbers.

DCIT also gives you the ability to receive your inventory as a csv file, please contact them directly for more information. ALOR does not provide these files.

\* As of 12/15/21: DCIT has an 80-character limit for entering vendor style numbers and serial numbers.
