BIG POS Guide Lika Behar - DCIT

Lika Behar has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information.
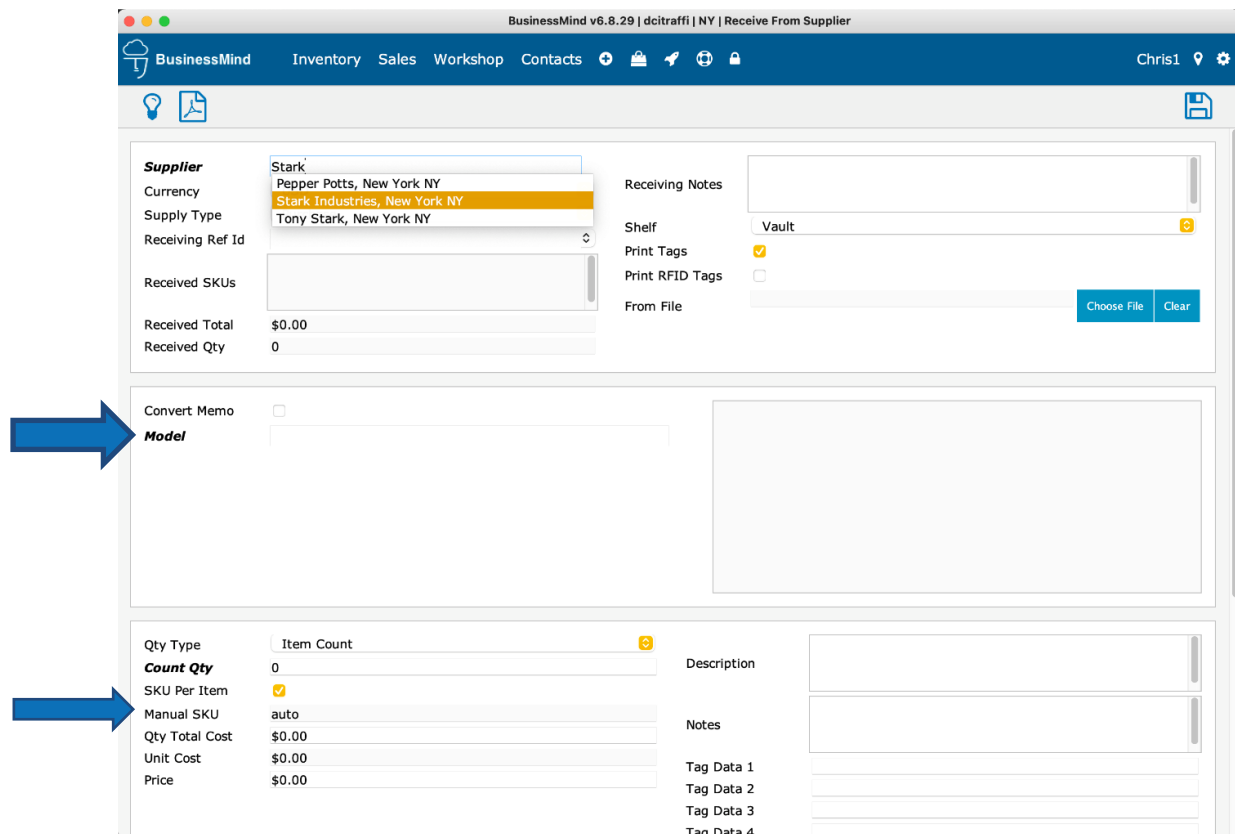

The correct style number for **Lika Behar** is entered in the Model # field: **DY-E-203-GOXD**

Examples of incorrectly entered style numbers include: **DY-E-203-xxxx, DYE203GOXD, DY-E-203**

DCIT will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

DCIT recommends checking the "SKU Per Item" box for **Lika Behar** items with serial numbers and typing the serial number, as a "Manual SKU" instead of "auto". It is advised to make this a required field.

DCIT also gives you the ability to receive your inventory as a csv file, please contact them directly for more information.

* As of 12/15/21: DCIT has an 80-character limit for entering vendor style numbers and serial numbers.
