

BIG POS Guide Michael M. - Edge

Michael M. has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information.

The correct style number for **Michael M.** is entered in the Vendor Style # field: **R123-1**

Examples of incorrectly entered style numbers: **R1231, R123/1, R123-1CT, R123**

Edge will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

Enter **Michael M.** serial numbers in a Serial # field that is created by you in the category set-up. It is advised to make this a required field.

The screenshot displays the BIG POS software interface for item entry. The 'Vendor Info' tab is active, showing fields for Vendor, PO #, Invoice #, Quantity, Ven Style #, Style Note, Barcode, and Stock Type. A blue arrow points to the 'Ven Style #' field. The 'Inventory' tab is also visible, showing fields for Location, Status, As Of, Date Entered, Entered By, Price Meth, and a checkbox for 'Exclude From Rewards'. The 'Ring Details' section (1) shows fields for Style, Metal, Color, Finish, Ring Size, and Serial #. A blue arrow points to the 'Serial #' field. The 'Pricing' section shows fields for Cost, Re-Cost, Re-Cost Dt, MARGIN, Retail, Lowest, Current, Sold, and Split. The 'On Sale' section shows fields for Price, Margin, Starts, Ends, and Sign. The 'Description' section shows a text area with 'Suggest' and 'Copy Item Details' buttons.
