

BIG POS Guide Citizen - Lightspeed

Citizen has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information.

In addition, Citizen does offer a digital catalog with their correct style numbers with images.

The correct style number for **Citizen** is entered in the Vendor ID field: BL5600-53E

Examples of incorrectly entered style numbers include: BL5600-53E-GEN-E, BL5600, BL5600-53E-GEN

Lightspeed will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

Citizen does not use serial numbers.

Lightspeed also gives you the ability to receive your inventory as a csv file, please contact them directly for more information.
