

BIG POS Guide Forevermark - Lightspeed

Forevermark has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information.

The correct style number for **Forevermark** is entered in the Vendor ID field: FR1002RD025D2Y0650

Examples of incorrectly entered style numbers include: FR1002RD025, FR1002RD025D, FR-1002RD

Lightspeed will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

Lightspeed recommends checking the “Serialized” box for **Forevermark** items with FMPC (serial numbers) and typing the serial number under the Serial #'s field. It is advised to make this a required field.

Lightspeed also gives you the ability to receive your inventory as a csv file, please contact them directly for more information.
