BIG POS Guide GN Diamond - JCS

GN Diamond has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information.
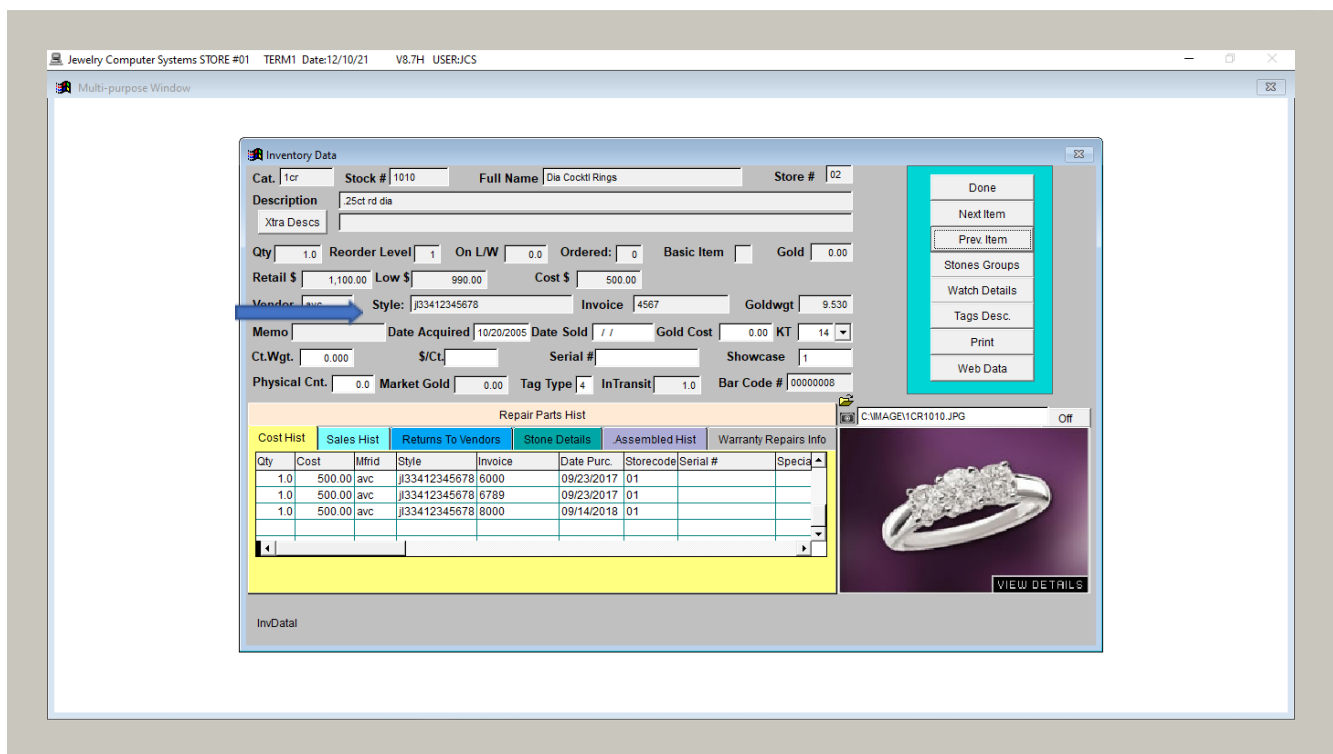

The correct style number for **GN Diamond** is entered in the Style # field: **D59620-04A**

Examples of incorrectly entered style numbers: **D59620/04A, D5962004A, D59620 04A, D59620**

JCS will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

Enter **GN Diamond** stock numbers in a Serial # field.

JCS also gives you the ability to receive your inventory as a csv file, please contact them directly for more information.

* As of 12/15/2021: JCS has a 20-character limit for entering vendor style numbers and a 15-character limit for entering serial numbers.
