

# BIG POS Guide GN Diamond - Lightspeed

**GN Diamond** has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information.

The correct style number for **GN Diamond** is entered in Vendor ID field: **D59620-04A**

Examples of incorrectly entered style numbers: **D59620/04A, D5962004A, D59620 04A, D59620**

Lightspeed will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

Lightspeed recommends checking the “Serialized” box for **GN Diamond** items with stock numbers and typing the stock number under the Serial #'s field. It is advised to make this a required field.

Lightspeed also gives you the ability to receive your inventory as a csv file, please contact them directly for more information.
