

BIG POS Guide Marco Bicego - Lightspeed

Marco Bicego has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information.

The correct style number for **Marco Bicego** is entered in the Vendor ID field: BB2609 Y

Examples of incorrectly entered style numbers include: BB2609, BB2609Y, BB2609-Y

Lightspeed will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

Marco Bicego does not use serial numbers.

Lightspeed also gives you the ability to receive your inventory as a CSV file, please contact them directly for more information.
