

BIG POS Guide Tacori - Lightspeed

Tacori has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information.

The correct style number for **Tacori** is entered in the Vendor ID field: HT 2517 B 1/2X W

Examples of incorrectly entered style numbers include: HT 2517, HT 2517 B, HT 2517-B

Lightspeed will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

Lightspeed recommends checking the “Serialized” box for **Tacori** items with serial numbers and typing the serial number under the Serial #'s field. It is advised to make this a required field.

Lightspeed also gives you the ability to receive your inventory as a CSV file, please contact them directly for more information.
