

BIG POS Guide True Romance - Lightspeed

True Romance has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information.

The correct style number for **True Romance** is entered in the Vendor ID field: WR977E/E14WG

Examples of incorrectly entered style numbers include: WR977, WR977/E, WR977/E-E 14WG

Lightspeed will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

True Romance does not use serial numbers.

Lightspeed also gives you the ability to receive your inventory as a CSV file, please contact them directly for more information.
