

BIG POS Guide Citizen - for Shopkeeper Point of Sale

Citizen has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information.

In addition, **Citizen** does offer a digital catalog with their correct style numbers with images.

The correct style number for **Citizen** is entered in the Vendor field: **BL5600-53E**

Examples of incorrectly entered style numbers: **BL5600-53E-GEN-E**, **BL5600**, **BL5600-53E-GEN**

Citizen does not use serial numbers.

The screenshot shows the 'Add Inventory' window in the BIG POS software. The window title bar indicates 'INVOICE User ID:TJ Level:9 Period:8 Platinum \$897.50 (+\$4.80)'. The 'Receive Inventory' tab is selected. A blue arrow points to the 'Vendor' dropdown menu. The 'Invoice Entry' section includes fields for 'Date Received', 'Discount', 'Freight', 'Other Exp', 'Taxes', and 'Total'. The 'Expected Invoice Total' is displayed as 0.00. The 'Balance' at the bottom right is also 0.00.
