

## Armenta Vendor Style Guide For DCIT Point of Sale

**Armenta** has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information.

The correct style number for Armenta is entered in the Model field: 17893

Examples of incorrectly entered style numbers: 17893 – SO, 17893 (CUSTOMER NAME), 17893 size 8

Armenta does not use serial numbers.

DCIT will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

DCIT also gives you the ability to receive your inventory as a csv file, please contact them directly for more information.
