

Monica Rich Kosann

Vendor Style Guide

for DCIT Point of Sale

Monica Rich Kosann has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information.

The correct style number for **Monica Rich Kosann** is entered in the Model field: **44341**

Examples of incorrectly entered style numbers: **44341 SO**, **44341 (CUSTOMER NAME)**, **44341-WHITE**

Monica Rich Kosann does not use serial numbers.

DCIT will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

DCIT also gives you the ability to receive your inventory as a csv file, please contact them directly for more information.
