## Vendor Style Guide

### for Edge Point of Sale

**Monica Rich Kosann** has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information.

The correct style number for **Monica Rich Kosann** is entered in the Ven Style # field: **44341**

Examples of incorrectly entered style numbers: **44341 SO**, **44341 (CUSTOMER NAME)**, **44341-WHITE**

**Monica Rich Kosann** does not use serial numbers.

Edge will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

In Edge, if you wish to account for an item that is custom made for a customer, you can use the “Style Note” field for this information, maintaining the integrity of the style number on your invoice. If the item is a special order, you will use the “Stock Type” field to record that and allocate the item to the customer.
