Revelation LG Diamonds by Craft Diamond
Vendor Style Guide
for Edge Point of Sale

Revelation has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information.

The correct style number for **Revelation** is entered in the Vendor Style # field: **LBF04283-4W-IC**

LBF04283-4W-IC: this defined by three parts as follows:

1. **LBF04283 is the parent style#,**

2. **4W – 4 means 14KT, W means White gold, we generally offering everything in 14KT except special orders, so mostly it has 4, but if it has 8 then that stands for 18KT, if it has PT that means platinum, then the second letter is self-explanatory – W or Y for Yellow and P for Pink/Rose gold**

3. **IC: stands for the customer type, we have IC and RC, IC means Independent customers of US, RC stands for Independent customers of Canada**

Examples of incorrectly entered style numbers: **LBF04283; LBF04283/4W; LBF042; LBF04283/4W/IC; LBF04283-4; LBF04283-IC**

Edge will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

Enter **Revelation's** serial numbers in a Serial # field that is created by you in the category set-up. It is advised to make this a required field.
