

BIG POS Guide Gems One - Edge

Gems One has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information. Please see the attached guide for reading **Gems One's** numbers.

The correct style number for Gems One is entered in the Vendor Style # field: **ABC30005/4CTW-4W**

Examples of incorrectly entered style numbers: ABC300054CTW4W, 300054, ABC30054W, S/O ABC30005/4CTW-4W, ABC30005/4CTW-4W WHITE

Edge will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

Gems One does not use serial numbers.

The screenshot shows the BIG POS software interface for item entry. A blue arrow points to the 'Vendor ID' field in the 'Vendor Info' section. The form is titled 'Item #001-140-00002(?)' and has a category of '140 Diamond Semi-Mount Rings'. The 'Vendor Info' section includes fields for Vendor ID, PO #, Invoice #, Quantity, Ven Style #, Style Note, Barcode, and Stock Type. The 'Inventory' section includes fields for Location, Status, As Of, Date Entered, Entered By, Price Meth, and an 'Exclude From Rewards' checkbox. The 'Pricing' section includes fields for Cost, Re-Cost, Re-Cost Dt, Retail, Lowest, Current, Sold, Spill, and Recalc. The 'Ring Details' section includes fields for Style, Metal, Color, Finish, Ring Size, and Serial #. The 'On Sale' section includes fields for Price, Margin, Starts, Ends, and Sign. The 'Description' section includes a text area and a 'Suggest' button.
