

## BIG POS Guide iDD LUXE - Edge

iDD LUXE has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information. Please see the attached guide for reading iDD LUXE's numbers.

The correct style number for iDD LUXE is entered in the Vendor Style # field: **MB004OP4**

Examples of incorrectly entered style numbers: **MB004**, **MB004**, **MB004-OP4**

Edge will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

Enter iDD LUXE serial numbers in a Serial # field that is created by you in the category set-up. It is advised to make this a required field.
