# BIG POS Guide Jocalio - DCIT

Jocalio has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information. Please see the attached guide for reading **Jocalio's** style numbers.

The correct style number for **Jocalio** is entered in the Model # field: **W1013A-FY-020D**

Please see below for help in reading **Jocalio's** style numbers:

Examples of incorrectly entered style numbers include: **W1013A, 1013, W1013A-020D, W1013A YELLOW, S/O W1013A-FY-020D**

DCIT will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

Jocalio does not use serial numbers.

DCIT also gives you the ability to receive your inventory as a csv file, please contact them directly for more information.

* As of 12/15/21: DCIT has an 80-character limit for entering vendor style numbers and serial numbers.
