

BIG POS Guide Martin Flyer - DCIT

Martin Flyer has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information. Please see the attached guide for reading **Martin Flyer's** style numbers.

The correct style number for **Martin Flyer** is entered in the Model # field: 04-52-1357-11

Examples of incorrectly entered style numbers include: 04-52-1357- 11-C, 04-52-1357-11 #43, 04-52-1357-11/06

DCIT will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

DCIT recommends checking the “SKU Per Item” box for **Martin Flyer's** items with serial numbers (JID numbers) and typing the serial number, as a “Manual SKU” instead of “auto”. It is advised to make this a required field.

The screenshot shows the 'BusinessMind v6.8.29 | dcitraffi | NY | Receive From Supplier' window. The interface includes a top navigation bar with 'BusinessMind', 'Inventory', 'Sales', 'Workshop', and 'Contacts'. The main form is divided into several sections:

- Supplier:** A dropdown menu showing 'Stark', 'Pepper Potts, New York NY', 'Stark Industries, New York NY' (highlighted), and 'Tony Stark, New York NY'.
- Receiving Notes:** A text area for notes.
- Shelf:** A dropdown menu set to 'Vault'.
- Print Tags:** A checkbox that is checked.
- Print RFID Tags:** A checkbox that is unchecked.
- From File:** A text field with 'Choose File' and 'Clear' buttons.
- Received SKUs:** A list box showing received items.
- Received Total:** A field showing '\$0.00'.
- Received Qty:** A field showing '0'.
- Convert Memo:** A checkbox that is unchecked, with a blue arrow pointing to the 'Model' field below it.
- Qty Type:** A dropdown menu set to 'Count Qty'.
- Item Count:** A field showing '0'.
- SKU Per Item:** A checkbox that is checked, with a blue arrow pointing to it.
- Manual SKU:** A field showing 'auto'.
- Qty Total Cost:** A field showing '\$0.00'.
- Unit Cost:** A field showing '\$0.00'.
- Price:** A field showing '\$0.00'.
- Description:** A text area for item description.
- Notes:** A text area for additional notes.
- Tag Data:** Four fields labeled 'Tag Data 1', 'Tag Data 2', 'Tag Data 3', and 'Tag Data 4'.

* As of 12/15/21: DCIT has an 80-character limit for entering vendor style numbers and serial numbers.
