

## **BIG POS Guide iDD LUXE - DCIT**

**iDD LUXE** has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information. Please see the attached guide for reading **iDD LUXE's** style numbers.

The correct style number for iDD LUXE is entered in the Model # field: MB004OP4

Examples of incorrectly entered style numbers include: MBoo4, MB004, MB004-OP4

DCIT will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

DCIT recommends checking the "SKU Per Item" box for **iDD LUXE** items with serial numbers and typing the serial number, as a "Manual SKU" instead of "auto". It is advised to make this a required field.
