

## BIG POS Guide Imagine Bridal - Edge

**Imagine Bridal** has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information. Please see the following guide for reading **Imagine Bridal** style numbers:

- **If the style number starts with a:**
  - **6 = Semi Mount**
  - **7 = anniversary band**
  - **8 = eternity band**
  - **2 = earrings**
  - **4 = pendant**
- All skus have a 5 digit number:
  - Example: 69156D
  - This is the "parent" sku
- Letter after first 5 digits designates the stone
  - D – Diamond
  - S – Sapphire
  - E - Emerald
- From there the child skus will include metal, and ctw
  - Example: 79156D-4W-1/4
  - 14K White Gold
  - 1/4 ctw

The correct style number for **Imagine Bridal** is entered in the Vendor Style # field: 79156D-4W-1/4

Examples of incorrectly entered style numbers: **79156, s/o79156D, 79156D-1/4**

Edge will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

**Imagine Bridal** does not use serial numbers.

In Edge, if you wish to account for an item that is custom made for a customer, you can use the "Style Note" field for this information, maintaining the integrity of the style number on your invoice. If the item is a special order, you will use the "Stock Type" field to record that and allocate the item to the customer.
