

Apex Diamonds Vendor Style Guide

for JCS Point of Sale

Apex Diamonds has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information.

The correct style number (model #) for **Apex Diamonds** is entered in the Style # field: 10-00507, R784Y-01

Examples of incorrectly entered style numbers: 1000507, S/O 10-00507, R784Y01, R784Y-Smith, R784Y-01 size 4.5

JCS will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

Enter **Apex Diamonds** serial numbers (SKU number) in a Serial # field.
