

BIG POS Guide Lands Collection - DCIT

Lands Collection has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information.

Please enter the vendor's name as **Lands Collection**.

The correct style number for **Lands Collection** is entered in the Model # field: **RE01Y**

- **R = Ring**
- **E = Collection (Earth)**
- **01 = Item Number**
- **Y = Metal Color**

We only offer modern electrum for the metal.

Examples of incorrectly entered style numbers: **RE01**, **S/O RE01Y**, **RE01Y SMITH**, **RE01Ysz9**

DCIT will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

Lands Collection does not use serial numbers.

DCIT also gives you the ability to receive your inventory as a csv file, please contact them directly for more

The screenshot shows the BusinessMind v6.8.29 interface for 'dcitraffi | NY | Receive From Supplier'. The form includes fields for Supplier (Stark Industries, New York NY), Currency, Supply Type, Receiving Ref Id, Received SKUs, Received Total (\$0.00), and Received Qty (0). It also has sections for Receiving Notes, Shelf (Vault), Print Tags (checked), Print RFID Tags, and From File. A 'Convert Memo' section is visible with a 'Model' field, highlighted by a blue arrow. The bottom section contains fields for Qty Type (Count Qty), Item Count (0), SKU Per Item (checked), Manual SKU (auto), Qty Total Cost (\$0.00), Unit Cost (\$0.00), Price (\$0.00), Description, Notes, and Tag Data 1-4.

information.
