

BIG POS Guide Lands Collection - Edge

Lands Collection has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information.

Please enter the vendor's name as **Lands Collection**.

The correct style number for **Lands Collection** is entered in the Vendor Style # field: **RE01Y**

- **R = Ring**
- **E = Collection (Earth)**
- **01 = Item Number**
- **Y = Metal Color**

We only offer modern electrum for the metal.

Examples of incorrectly entered style numbers: **RE01**, **S/O RE01Y**, **RE01Y SMITH**, **RE01Ysz9**

Edge will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

Lands Collection does not use serial numbers.

The screenshot shows the BIG POS software interface for adding a new item. The 'Vendor Info' section on the left contains the 'Vendor Style #' field, which is highlighted with a blue arrow. The 'Inventory' section in the middle shows the 'Location' dropdown set to '1' and the 'Date Entered' field. The 'Pricing' section on the right includes fields for 'Cost', 'Re-Cost', 'Re-Cost D%', 'Retail', 'Lowest', 'Current', 'Sold', and 'Spiff'. The 'Ring Details' section at the bottom left includes dropdowns for 'Style', 'Metal', 'Color', and 'Finish', as well as input fields for 'Ring Size' and 'Serial #'. The 'On Sale' section at the bottom right includes input fields for 'Price', 'Margin', 'Starts', 'Ends', and 'Sign'. The 'Description' field at the bottom is empty, with 'ABC' and 'Suggest' buttons nearby. The top navigation bar includes tabs for 'General', 'Stones', 'Tag', 'Quantities', 'Notes', 'Pop-Ups', 'Disassembled', 'Pre-Appraise', 'History', and 'Website'.
