

Lands Collection Vendor Style Guide

for JCS Point of Sale

Lands Collection has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information.

Please enter the vendor's name as Lands Collection.

The correct style number for Lands Collection is entered in the Style # field: RE01Y

- \circ R = Ring
- E = Collection (Earth)
- o 01 = Item Number
- Y = Metal Color

We only offer modern electrum for the metal.

Examples of incorrectly entered style numbers: RE01, S/O RE01Y, RE01Y SMITH, RE01Ysz9

JCS will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

Lands Collection does not use serial numbers.

JCS also gives you the ability to receive your inventory as a csv file, please contact them directly for more information.
