

Lands Collection Vendor Style Guide

for Jewelmate Point of Sale

Lands Collection has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information.

Please enter the vendor's name as **Lands Collection**.

The correct style number for **Lands Collection** is entered in the Design # field: **RE01Y**

- **R = Ring**
- **E = Collection (Earth)**
- **01 = Item Number**
- **Y = Metal Color**

We only offer modern electrum for the metal.

Examples of incorrectly entered style numbers: **RE01, S/O RE01Y, RE01Y SMITH, RE01Ysz9**

Lands Collection does not use serial numbers.
