BIG POS Guide John Hardy - DCIT

John Hardy has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information. Please see the following guide for entering **John Hardy** commercial reference and item numbers:

The correct commercial reference (Comm. Ref.) number for **John Hardy** is entered in the Model # field: **NBP987802DIX16-18**

Examples of incorrectly entered style numbers: **NBP987802DI, 987802, 248526, s/o NBP987802DIX**

DCIT will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

DCIT recommends checking the "SKU Per Item" box for **John Hardy** items with item numbers and typing the item numbers, as a "Manual SKU" instead of "auto". It is advised to make this a required field.
