

## BIG POS Guide John Hardy - Lightspeed

**John Hardy** has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information. Please see the following guide for entering **John Hardy commercial reference** and **item numbers**:

The correct **commercial reference (Comm. Ref.) number** for **John Hardy** is entered in the Vendor ID field:  
**NBP987802DIX16-18**

Examples of incorrectly entered style numbers: **NBP987802DI**, **987802**, **248526**, **s/o NBP987802DIX**

Lightspeed will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

Lightspeed recommends checking the “Serialized” box for **John Hardy** items with **item numbers** and typing the **item numbers** under the Serial #'s field. It is advised to make this a required field.
