BIG POS Guide Joshua J - DCIT

Joshua J has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information. Please see the following guide for entering **Joshua J's** style numbers:

The correct style number for **Joshua J** is entered in the Model # field: **JSM1112**

Examples of incorrectly entered style numbers: **184926, JSM1112/184926, JSM1112-11.03, 184926/ JSM1112, JSM1112184926, 184926JSM1112, JSM1112 184926**

DCIT will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

DCIT recommends checking the "SKU Per Item" box for **Joshua J** items with item numbers and typing the serial number, as a "Manual SKU" instead of "auto". It is advised to make this a required field.
