

VAHAN Vendor Style Guide

for JCS Point of Sale

VAHAN has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information. Please see the following guide for entering **VAHAN's** item numbers:

Please enter **VAHAN's** name into your point-of-sale system as "**VAHAN**".

All items have numerical codes that begin with a specific number to signify the jewelry category it belongs to:

1 – RINGS; 2 – BRACELETS; 4 – EARRINGS; 7 – PENDANTS; 8 – CHAINS

BRACELET BAND WIDTHS

2MM, 3MM, 4MM, 6MM, 8MM, 10MM, 12MM, 16MM, 22MM, 27MM

ANATOMY OF STYLE NUMBER:

Example: **23831DBO04** – **2** means bracelets, **D** means diamonds, **BO** means Black Onyx, **04** means 4MM. **D** will always be listed before any colored stone. All-gold jewelry will feature **G** before gemstones (ex. **23762GD02**). Some items do not have gemstones (ex. **23856/04**)

Note: Older bracelets may not have band width numbers at the end.

The correct item number for **VAHAN** is entered in the Style # field: **23762GD02**

Examples of incorrectly entered item numbers: **23762**, **SO*23762G**, **23762GD02 Smith**

JCS will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

VAHAN does not use serial numbers.
