

BIG POS Guide John Hardy - Edge

John Hardy has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information. Please see the following guide for entering John Hardy **commercial reference** and **item numbers**:

The correct **commercial reference (Comm. Ref.) number** for John Hardy is entered in the Vendor Style # field: **NBP987802DIX16-18**

Examples of incorrectly entered style numbers: **NBP987802DI, 987802, 248526, s/o NBP987802DIX**

Edge will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

Enter John Hardy **item numbers** in a Serial # field that is created by you in the category set-up. It is advised to make this a required field.
