

BIG POS Guide Nader Kash - DCIT

Nader Kash has created their vendor style numbers in such a way that each variation of a particular design is accounted for, so there is no need to customize your numbers with metal colors, gemstones, sizes, or other information.

The correct style number for **Nader Kash** is entered in the Model # field: **NK-MIXHS-7GRAD**

Examples of incorrectly entered style numbers include: **NKMIXHS7GRAD, NK-7GRAD, S/O NK-MIXHS-7GRAD**

DCIT will auto populate any SKU that has been received before – be careful of using this as you begin to correct any previously bad entries.

DCIT recommends checking the “SKU Per Item” box for **Nader Kash** items with **stock (serial) numbers** and typing the serial number, as a “Manual SKU” instead of “auto”. It is advised to make this a required field.

DCIT also gives you the ability to receive your inventory as a csv file, please contact them directly for more information.
